

Plexxikon

[Keith B. Nolop, M.D.](#)

Chief Medical Officer

Senior Vice President, Development

Dr. Nolop joined Plexxikon in October 2004. He has 15 years of biotechnology and pharmaceutical clinical development experience, including the filing of multiple IND's, the successful filing of three new drug applications, and the approval of several labeling supplements. Prior to Plexxikon, he served as vice president of clinical research at CoTherix, Inc., where he was responsible for the clinical development of iloprost, a drug that has been accepted by the FDA for priority review. Prior to CoTherix, he was a senior director with Schering-Plough Corporation, where he successfully initiated early to late clinical programs in multiple disease indications including allergic rhinitis, asthma, COPD, and hypercholesterolemia. Dr. Nolop received his M.D. from Vanderbilt University and is board-certified in pulmonary diseases.
