

Plexxikon

**Prabha N. Ibrahim, Ph.D.**

Vice President, Chemistry

Dr. Ibrahim was named vice president of chemistry at Plexxikon in 2009, bringing over 15 years of experience to her position. As head of chemistry since 2002, she has played a key role in the company's scaffold-based drug discovery efforts for a variety of protein family targets, leading to the identification of Plexxikon's novel drug candidates now in the clinic and in preclinical research. Prior to Plexxikon, Dr. Ibrahim was a senior scientist at CV Therapeutics, where she was responsible for the identification and development of preclinical candidates for cardiovascular indications. She previously worked at Amgen, where she played an integral role in small molecule drug discovery in inflammation.

Dr. Ibrahim earned her Ph.D. at the University of Victoria, Canada, and was a Welch Foundation Fellow at Rice University in Houston.
