

Plexxikon

Athanasios Tsiatis, MD

Vice President, Clinical Development

Dr. Athanasios Tsiatis has served as Plexxikon's Vice President, Clinical Development since August 2020. More recently, Dr. Tsiatis has served as Senior Director, Oncology Clinical Development, global lead for the bromodomain program, and clinical lead for the PLX9486 program since joining Plexxikon in May 2018. Previously, Dr. Tsiatis held roles of increasing responsibility in clinical development at Genomic Health from 2011 to 2018 and was integral to the development and commercialization of multiple genomic cancer tests. Dr. Tsiatis completed his postgraduate medical training at Vanderbilt University Medical Center, the Johns Hopkins Hospital, and the Hospital of the University of Pennsylvania. Dr. Tsiatis holds an M.D. from Vanderbilt University School of Medicine and a B.A. in Biology from New York University.
